

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 16th through 30th, 2004

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 16-30, 2004**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003
To: All CEQA Lead Agencies
From: Terry Roberts, Director, State Clearinghouse
Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS
WITH THE STATE CLEARINGHOUSE
Calendar Years 1999 through 2003**

	NOP	EIR	ND/MND	NOD	NOE	EA	EIS	OTHER	Total Documents	Total Projects

KEY:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

NOTE:

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

2004042080	Hunter Minor Subdivision and Special Permit Humboldt Community Services District Eureka--Humboldt A Parcel Map Subdivision of a 0.52 acre parcel into three parcels ranging in size from 5,585 sq. ft. to 9,308 sq. ft. Proposed Parcels 1 and 2 acre currently vacant. Proposed parcel 3 is developed with an approximately 1,400 sq. ft. single family residence and a detached 690 sq. ft. garage. A Special Permit is required for an exception to the required lot width/depth ratio to allow the lot depth of proposed Parcel 2 to exceed three times the lot width. The project also includes an exception request to the lot frontage requirement in order to allow for the creation of proposed Parcels 2 and 3 as "flag" lots, and a request for an exception to the 40 foot wide right-of-way requirement for the access to proposed Parcel 1 and 2.	Neg	05/17/2004
2004042082	PLN 2004-04281 / CEQ 2004-01019 Santa Clara, City of --Santa Clara Use permit to allow new construction of a 101-room, 4-story hotel with full service restaurant and bar service; and variance to allow location of two wall signs, 35 feet above ground level on a singular building elevation and increase maximum sign area for the site.	Neg	05/17/2004
2004042083	Stone Bridge Cellars (a.k.a. Joseph Phelps Vineyard) (Use Permit #03467-MOD) Napa County St. Helena--Napa Request to modify Use Permit #U-67374 for the following: a. Construct a new barrel storage building (Insignia Building) of 37,873 sq. ft. b. Remodel and add 2,352 sq. ft. to the existing Innisfree building c. Remodel the existing JPV building to add 7,625 sq. ft. of new interior space, creating a larger second floor, for a total winery area of 92,218 sq. ft. d. Relocate the existing crush pad area from the west side of the Innisfree building. e. Add 4 full time employees and 2 part time employees f. Add 47 visitor and employee parking spaces to the north side of the Innisfree building. g. Expansion of the parking area adjacent to the JPV building from 33 parking spaces to 60 parking spaces. h. Widen the existing access driveway to the Innisfree building and new insignia building; for a new total impervious site coverage 444,363 sq. ft. i. Improve and expand the wastewater system to accommodate both domestic and winery wastewater. j. Request for 2-4 temporary office/storage trailers during construction. The construction materials will vary to match existing architectural style while utilizing the natural terrain of the area. Access to the facility is provided via the existing private drive from Taplin Road. The existing driveway that provides access to the Insignia building and proposed barrel storage building will be improved to comply with County standards, except in locations within the creek setbacks, in which a road exception has been granted. All associated improvements will require the removal of 54 oaks, popular and redwood trees varying in size from 6 inches in diameter to 24 inches in diameter.	Neg	05/17/2004

2004041083	CUP 03-169/TR 60024 27500 Block of Lake Hughes Road, Castaic, CA 91384 Los Angeles County Department of Regional Planning --Los Angeles An application for a Tentative Tract Map to construct 84 detached single-family condominium units and a 7,800 sq. ft. private recreation center. Each unit will have a two-car garage, and the entire development will have a total of 57 on-site guest parking spaces. Southern California Edison currently holds a 100-foot wide utility easements along the western portion of the project site from Lake Hughes Road to Violin Canyon Road. The applicant is proposing to narrow this easement to 10 feet as well as under grounding the existing distribution lines on there. The proposed project will provide access via two egress-only access points at Lake Hughes Road and Violin Canyon Road. In addition a gated entrance will be located on each side of Van Gorder Way, along an east-west intern private street that bisects the site. Internal access will comprise of a system of 24 feet - 26 feet and 28 foot wide private driveways. The proposed project will require approximately 11,000 cubic yards of grading and a Conditional Use Permit for residential use in a commercial and development program zone.	Neg	05/18/2004

1998111030	<p>Enter Into a Local Resources Program Agreement for the Groundwater Replenishment System Seawater Barrier</p> <p>Orange County Water District</p> <p>Anaheim, Huntington Beach--Orange</p> <p>Metropolitan proposes to provide incentive payments over a 23-year period for the Project, one to the 13 project selected for Metropolitan's LRP. The Project will produce and deliver approximately 31,000 acre-feet per year (AFY) of recycle water for injection into the expanded Talbert Seawater Instruction Barrier and other nearby uses. The 31,000 AFY of yield would reduce an equal amount of imported water demand. The source of water is secondary treated sewage from Orange County Sanitation District's (OCSD's) existing Reclamation Plant No. 1 in the city of Fountain Valley. OCWD, acting as the Lead Agency and Applicant, with the cooperation of the OCSD and the United States Bureau of Reclamation, prepared and processed a Final Program Environmental Impact Report / Tier 1 Environmental Impact Statement (Final EIR) for the Groundwater Replenishment System Program, which addressed the Seawater Barrier Project and the Groundwater Recharge Project. Only the project associated with the Seawater Barrier is part of the LRP agreement between Metropolitan, MWDOC, and OCWD. Subsequently, minor modifications to the Groundwater Replenishment System Program and Seawater Barrier Project were proposed by the Lead Agency and addressed in three separate addenda to the Final PEIR.</p>	NOD	
1999032052	<p>Montalcino At Napa Resort</p> <p>Napa County</p> <p>Napa--Napa</p> <p>Proposal to construct a 408,184 sq. ft. resort hotel with 379-guest rooms, a 52,380 sq. ft. conference facility, restaurants totaling 450 seats, a spa, and various amenities on a 71.77 acre site. The project includes the extensions and widening of Devlin Road between project site north to Soscol Ferry Road.</p>	NOD	
1999101137	<p>Del Monte Beach Re-Subdivision</p> <p>Monterey, City of</p> <p>Monterey--Monterey</p> <p>Re-subdivision of a 1.53 acre parcel from 12 lots to 4 lots: 3 residential, an access road, sewer and water service, and a protected Dune Habitat Preserve. Previously approved by the city of Monterey on July 17, 2001. Restoration and maintenance of the Dune Habitat Preserve will occur as detailed in the Del Monte Shores & Dunecrest Villas Mitigation and Management Program (May 2003). Implementation of the project will result in impacts to Sand gilia, a plant protected as threatened under the California Endangered Species Act.</p>	NOD

2004022014	<p>New Almaden Trail Reroute and Pedestrian Bridge Replacement Santa Clara County Parks and Recreation Department San Jose--Santa Clara</p> <p>The project consists of trail realignments at two sites along the New Almaden Trail, and a replacement and relocation of a degraded unsafe pedestrian bridge. Both sites are in Almaden Quicksilver County Park. Site A is a re-routing of an existing trail above and around a section of an area subject to land slides and where erosion has washed out a section of the existing trail. A temporary walkway has been constructed over the washed out section of trail. Site B is re-routing of an existing trail to reduce the grade of the current trail, which exceeds 20% at some points, and to replace an existing degraded pedestrian bridge. The current bridge location is approached by a steep section of trail (approximately 30% grade) which is eroded; the bridge tread and supports are degraded and unstable (see photo 1). This bridge will be replaced and moved downstream to a site with greater bank stability, and approached by the new, less steeply graded trail alignment.</p>	NOD	
2004022077	<p>Randall Cook Humboldt County Planning Department Eureka--Humboldt</p> <p>A Coastal Development Permit and Final Map Subdivision of 1.31 acres into 8 lots ranging in size from 5,000 to 17,000 sq. ft. approximately. The subdivision will site existing single-family residences onto Lots 4 and 7 and two existing duplexes onto Lot 8. The duplexes will remain nonconforming. The subdivision requires an exception to the lot frontage requirement and 40 foot right-of-way standard to allow for a flag lot configuration. The subdivision will be accessed via Quaker and 18th Avenues. Water and sewer services will be provided by the Humboldt Community Services District. The Coastal Development Permit also includes proposed demolition of a detached garage and for the demolition of an existing residence and kennel that was completed without permits.</p>	NOD

2004048356	Day Use Pay Stations (03-04-SD-31) Parks and Recreation, Department of --San Diego This project consists of the installation of (14) pay stations for the San Diego Coast District day use parking lot. Pay stations are approximately 5.5 feet in height and do not need utility connections. Concrete footings are necessary to secure pay stations. These footings may require a ground disturbance of less than 25 sq. ft. at a depth of approximately 2 ft.. Stations will be located in existing parking lots. Some of the pay stations will be used in lieu of existing collection booths or iron rangers. Two locations have not had fees collected by State Park: Carlsbad State Beach at Tamarack Lot and South Carlsbad State Beach at the North Ponto Lot.	NOE	
2004048357	Install Herb Garden - Cousins Candy (03-04-SD-32) Parks and Recreation, Department of --San Diego This project consists of the removal of a non-historic bench in front of a concession operated candy store. The bench will be replaced with a wooden planter box, it will be set above ground and filled with herbs consistent with the plant guidelines in the General Plan for Old Town San Diego State Historic Park.	NOE	
2004048358	Remove 2 Dead Trees-San Pasqual Monument (03-04-SD-30) Parks and Recreation, Department of --San Diego This project consists of the removal of two dead Eucalyptus trees located around the monument area of San Pasqual Battlefield state Historic Park. The dead trees will be cut down and their stumps will be ground. The tree adjacent to the highway next to Park could possibly be a safety concern if it were to fall.	NOE	
2004048359	Torrey Pines Lodge West Adobe Wall Repair (03-04-SD-28) Parks and Recreation, Department of --San Diego This project consists of restoring the adobe wall located on the north West Side of Torrey Pines Lodge. The existing wall is constructed of adobe block and covered with plaster. The deteriorated wall will be lost if not repaired. The restoration requires drawings, measurements, and photos before structure dismantling. After that, the adobe block will be reformed and or replaced with stabilized adobe brick. This may include the patching and rebuilding of a wall section. The finished wall would then be recovered with plaster to match existing structure.	NOE

2004041089	Conditional Use Permit No. 02-236 Gorman Water Extraction Project Los Angeles County Department of Regional Planning Gorman--Los Angeles This project is a conditional use permit to request authorization for construction of three water tank farms, three loading stations and associated spring water delivery pipes from several of the natural springs located on the property. Approximately three acres of the lot will be paved and covered by structures and the rest of the 189 acres will be left as open space. A full-time caretaker will inhabit the existing residence on site, which is served by a domestic well and septic system. Water tank farms will provide room for up to eight water storage tanks on a concrete slab foundation measuring approximately 30X60 feet. Tanks will vary in size from 10,000 to 12,000 gallons each. To minimize the risk of rupture due to San Andreas Fault seismic activates, the tanks will be constructed of seamless polyurethane and their height will be restricted to a maximum of 14 feet. Up to 40 trucks in a 24-hour period will load and export water from the site. The area will be secured with an 8-foot high chain link fence enclosure. Grading for all three loading areas will move and re-compact approximately 1200 cubic yards of soil.	Neg	05/19/2004

2003061062	Copper Mountain College Master Plan Update Copper Mountain Community College District --San Bernardino A 20-year Master Plan to expand the campus to support a projected enrollment of 4,690 full time equivalent (FTE) students, and a total student enrollment of 9,039 (full/part-time). The Master Plan will result in 295,133 gsf of buildings, 1,187 parking spaces, 17 acres of playing fields and 29 acres of open space.	NOD	
2003071074	Tentative Parcel Map 30745, Destination Ramon, Walmart (related case No. 5.0957-CUP) Palm Springs, City of Palm Springs--Riverside Tentative Parcel Map (TPM 30745) for the subdivision of approximately 31.12 acres into 8 parcels, ranging in size from 22.02 acres to 0.92 acres, for future development of a 277,000 sq. ft. retail, WalMart - anchored shopping center, and a General Plan finding that the vacation of the right-of-way of Sky Point Drive East, West and North, is consistent with Circulation Element of the General Plan.	NOD	
2003111098	Baldwin Hills Scenic Overlook Project, Kenneth Hahn State Park Parks and Recreation, Department of --Los Angeles The purpose of this proposed project is to develop the 58-acre Baldwin Hills Scenic Overlook for use as a recreational area, as well as a natural resource educational/interpretive park for visitors and local schools. The project has four primary elements: develop public access to the property; provide approximately 110 parking spaces for visitors; construct a 10,300 sq. ft. visitor center; and provide protection and interpretation of the natural and cultural resources of the park and the adjacent Ballona Creek. The project would restore the site's natural ridgelines and topography that were previously graded and would emphasize restoration of native coastal sage scrub habitat. Several public meetings and workshops have been held to solicit public input on the design of the proposed visitor center and site feature.	NOD	
2004049031	Corona Drains Lines 46, 7-A, IG, IJ, and 52; Project Nos. 2-0-0331, 2-0-0232, 2-0-0223, 2-0-0224, 2-0-0226 and 2-0-0350 Riverside County Flood Control and Water Conservation -- The proposed project consist of the construction and subsequent operation and maintenance of six underground storm drain systems totaling approximately 20,000 linear feet which will collect and convey tributary storm flows through residential and commercial areas. The proposed projects will provide improved flood protection to existing residences, commercial development, public roads, and will be constructed within existing street rights of way.	NOD

2004041103	<p>03-246 and 03-247 (Home Center) Murrieta, City of Murrieta--Riverside</p> <p>The proposed project consists of constructing 233,400 sq. ft. of commercial development within 12 buildings ranging in size from 3,000 to 40,000 sq. ft. The buildings are proposed to be 30-feet high. The uses will range from fast food restaurant with drive-through to home furnishings. The design of the project has the front of the buildings oriented toward Interstate 215 and the loading areas adjacent to Avenida Acacias. The loading acres are a minimum of 20-feet from the edge of the right-of-way and are screened from the adjacent homes to the east by berming, landscaping, and a screening wall that is 10 to 15-feet in height. The site proposes two access driveways from Avenida Acacias. In addition to these two driveways the project has a shared access easement with the commercial development to the northeast. This shared driveway takes access from Los Alamos Road via a signalized driveway. The project has been designated to provide 1,056 parking spaces which are in excess of the 761 required by the City's Development Code. The project proposes a 15 foot landscape strip along Interstate 215 to provide buffering and screening of the parking areas. The project provides 20.9% landscaping which is in excess of the required 20%. The project is designated to avoid any potential hazards.</p>	Neg	05/20/2004
2004041104	<p>04-004/TR 60750 2555 Mountain Avenue, South Monrovia Islands, CA 91010 - Residential Development Los Angeles County Department of Regional Planning Monrovia--Los Angeles</p> <p>An application to authorize the construction of seven two-story detached condominium units. There will be a two-car attached garage for each unit and a total of two on-site guest parking spaces for the whole development. The project also proposes a 26 foot wide private driveway and fire lane, an additional access driveway to Unit 1, and one catch basin, and the removal of four existing single-family residences, one shed, two 6 foot and 4 foot high chain link fences, and 15 non-oak trees. A 6 foot high concrete block wall will surround the entire project site. Heavy-duty trucks will make 83 trips to import 825 cubic yards of fill materials onto project site. The proposed project site will have 38,837 sq. ft. after street dedication and alley widening, and will take access from Mountain Avenue through a 3 feet - 6 inch wrought iron automatic gate.</p>	Neg	05/20/2004
2004042099	<p>Warlick Special Permit Humboldt County Eureka--Humboldt</p> <p>A Special Permit to validate the un-permitted placement of approximately 1,600 cubic yards of fill on the subject property; and for wetland restoration involving the removal of approximately 450 cubic yards of un-permitted fill from the wetland area. The fill has been removed from the wetland area and placed on the property outside of required wetland setback. The disturbed wetland area has been re-vegetated. The California Department of Fish and Game has reviewed the work that has already occurred and determined it to be adequate for restoration of the habitat values of the wetland.</p>	Neg	05/20/2004

2003081101	Lambert/Idaho Specific Plan La Habra, City of La Habra--Orange The project is the adoption and implementation of the Lambert Road/Idaho Street Specific Plan, including a General Plan Amendment, Zone Change, and Vesting Tentative Tract Map. The Specific Plan proposes up to 112 detached single-family houses including 1.25 acres of open space and passive recreation area.	EIR	06/07/2004
2004011057	Education and Social Sciences Building University of California, Santa Barbara Goleta, Santa Barbara--Santa Barbara UCSB is proposing to construct two, 4-story (maximum 65-foot high) academic buildings and one two-story theater, for a total 120,920 assignable square feet (206,955 gross square feet), to house the Gevirtz Graduate School of Education and select departments from the College of Letters and Science. The project is proposed on approximately 5.3 acres of surface parking (Parking Lots 20 and 21, 563 parking spaces). The site fronts approximately 720 feet of Ocean Road that lies between the campus bus loop to the east and the intersection of Ocean Road and Arts Lane (El Colegio Road extension) to the west. Site improvements include approximately two acres of landscaping, parking spaces on Ocean Road (10 spaces) and Arts Lane (14 spaces), relocation of the signalized pedestrian crossing 200 feet to the west, relocation of a bike parking area and upgraded utilities including storm drain, water electrical lines.	EIR	06/07/2004
2004031097	Draft Environmental Impact Report for the Redevelopment Plan for the Downtown Enhancement Project Hanford, City of Hanford--Kings The Agency is proposing adoption of the Plan for the purposes of, 1) Implementing the Goals, Objectives, Policies and Programs of the City and County General Plans within the Project area; 2) promoting long-term Agency activities to lessen or eliminate existing and prevent the spread of a new blight within the Project Area; and 3) increasing, improving and preserving the supply of housing affordable to persons of very low- to moderate- income in the community. Such activities should help to cause the long-term revitalization of the Project Area and may include, but not necessarily be limited to, construction of new upgrading existing public facilities and infrastructure, prompting and facilitating economic development and job growth, providing additional affordable housing opportunities for those who qualify, and generally helping to improve the quality of life for residents, and business and property owners within the Project Area and the community. While not proposed as specific projects at this time, these actions are possible activities that may be undertaken over the 30-year effective life of the Plan with respect to the Project Area. 2002122045	Redding Oasis Center Redding, City of Redding--Shasta The proposed project is a regional commercial center on approximately 90 acres of vacant land located in the northeast and southeast quadrants of the interchange of Interstate 5 and Oasis Road in Redding, California. The project would include approximately 1,170,000 sq. ft. of floor area for the various uses. The proposed project would be developed in two phases, with Phase 1 occurring on the portion of the property north of Oasis Road and Phase II occurring subsequently on the property south of Oasis Road. Levenson Development ("Levenson") is the applicant for both phases.	EIR	06/09/2004
2003062066	Skyway Widening Project Butte County --Butte Widen existing 2-lane Skyway to four 12-foot-wide lanes with 8-foot shoulders from 750 feet south of Pentz Road to 750 north of South Park Drive, including over Magalia Dam. Includes replacement of the spillway bridge at Magalia Dam. Two alternatives, 35 miles per hour and 45 mile per hour design speed alignments, are evaluated. The 45 mile per hour alignment would be straighter, have fewer curves, and have fewer linear feet of total retaining wall length than the 35 mile per hour alignment.	EIR	06/09/2004
2003111021	Draft Environmental Impact Report Marinapark Resort and Community Plan Newport Beach, City of Newport Beach--Orange The proposed project includes the development of a luxury resort hotel with ancillary facilities that include a business administrative building, spa villa, surface and subterranean parking, and 12 new boat slips. A concrete walkway will extend from the resort hotel to the boat slips. A bulkhead will also be constructed and will separate the beach from the boat slips. Another concrete walkway from 18th Street will be constructed parallel to the public sand beach to provide access for the public. The project also includes reconstruction of the existing Community Center and Girl Scout House into one structure, a tot park, four public tennis courts, and a shared parking lot for the community facilities and resort visitors. 2004041117	<p>Cal Mex Truck Park San Diego, City of --San Diego</p> <p>Site Development Permit to allow the construction of a temporary, five year, truck parking and storage facility. The proposal includes four office trailers, tie downs, and ADA ramps. Parking would consist of 401 truck parking spaces, 17 standard vehicle parking spaces, and four accessible vehicle parking spaces for a total of 422 parking spaces. The 13.25-acre site is located at 8111 Airway Road in the Industrial Subdistrict of Otay Mesa Development District in the Otay Mesa Community Plan area. (Portion of Section 34, township 18 south, range 1 west, San Bernardino Meridian). Applicant: Toby Hallal, TRH Inc.</p>	Neg	05/25/2004
2004041118	<p>Miossi Road Water Main Relocation San Luis Obispo, City of San Luis Obispo--San Luis Obispo</p> <p>The proposed project is construction of a new 16-inch water transmission main (Specification #99211), to replace/reroute the existing aging and failing 14-inch welded steel water transmission line. The new waterline will connect to the existing transmission main at the entrance to Cuesta Park on Loomis Street near the northeasterly City Limits, and travel northerly along the gravel shoulder of the old abandoned concrete State highway now known as Miossi Road for approximately 920 meters where it will connect to the City's Reservoir No. 1. The project will also include installation of water service lines to tie back in and continue to serve the Police Department Rifle Range, Cuesta Park and the veterinary hospital all of which are currently served from the existing line that will be abandoned. Construction is estimated to begin in the summer of 2004 or spring of 2005 and is anticipated to take roughly 4-6 months to complete. The project will take place primarily in an easement obtained from the current landowner and within the County right-of-way.</p>	Neg	05/25/2004
2004041119	<p>Hi-Desert Water District Warren Valley Basin Groundwater Recharge Hi-Desert Water District Yucca Valley--San Bernardino</p> <p>The project consists of the following activities: Install approximately 7,000 lineal feet of 24-inch PVC pipeline. The maximum area of surface disturbance is estimated at 140,000 sq. ft. or approximately 3.21 acres. The construction of a recharge area containing two separate basins. Each basin will be approximately 5 acres in size. Other facilities include the flow control facility, which will disturb another 3,000 sq. ft. or 0.07 of an acre of the recharge basin site surface, and approximately 555 cubic yards of soil (to a 5-foot depth). The 3 monitoring wells and one extraction well will be developed according to typical District specifications.</p>	Neg	05/25/2004

	communication cabling project commonly referred to as "Level (3)." The specific revision involves a modification of Condition #76, enabling the applicant to install conduit by means of direct burial and directional boring about the northerly perimeter of El Estero Mash rather than one continuous bore under the marsh.		
2004041122	Las Tablas Road at Highway 101 Underpass Widening Intersection San Luis Obispo County --San Luis Obispo The County of San Luis Obispo proposes to widen the Las Tablas Road underpass at Highway 101 to add center left turn lanes and traffic signals at the interchange. The structure bridge work includes removal of all four curtain walls and part of both in-filled pier walls. The purpose of the project is to maximize the efficiency of Las Tablas Road and the Highway 101 Interchange to maintain acceptable traffic operations in the future. The project would also include realignment of the existing northbound off-ramp to improve the non-standard skew angle between the off-ramp and Las Tablas Road. The removal of the curtain walls will also improve seismic performance of the structure. These improvements will be fully (100%) funded by the County and construction is anticipated to begin in the summer of 2004. Project plans show the existing and proposed alignments. The proposed northbound off-ramp re-alignment will bring the off-ramp closer to the existing single family residential lots to the east. These lots are located several feet above the off-ramp elevation and a retaining wall will be required to achieve the realignment. The area of disturbance will total approximately 2 acres. The entire impacted area will be seeded and mulched, planted and erosion control measure will be installed to prevent erosion. The site is located on Las Tablas Road, at the intersection with Highway 101, Templeton, San Luis Obispo County, in the Salinas River planning area.	Neg	05/25/2004

Neg	05/25/2004
2004042120	Main Avenue Bridge Replacement Project Sacramento, City of Sacramento--Sacramento The proposed project is located at Main Avenue between Pell Drive and Northgate Boulevard. The City of Sacramento, in coordination with the California Department of Transportation and Federal Highway Administration, proposes to reconstruct the Main Avenue Bridge (Bridge No. 24C-0008). Replacement of the bridge is proposed due to issues associated with structural deficiencies, including severe damage caused by timber decay and deterioration of the concrete deck. The proposed project consists of constructing a new four-lane bridge structure adjacent to and ultimately replacing the existing bridge. The proposed bridge structure will be approximately 821 feet long and approximately 80 feet wide. The proposed bridge will be elevated (grade-separated) and will span both the east levee of the NEMDC and the UPRR tracks. The new structure will accommodate four lanes of traffic and shoulders for standard bicycle lanes, as well as providing pedestrian and bicycle access.	Neg	05/25/2004
2004042121	El Cerrito City Hall Project El Cerrito, City of El Cerrito--Contra Costa The applicant proposes to construct and/or renovate a new City Hall, a public library, and a public safety building. The project site, which is currently five parcels, would be merged into two or three parcels for this project. The intent of the project is to improve the City's operating capacity, allow for shared uses, and centralize the location of numerous municipal facilities.	Neg	05/25/2004
2004042123	Lockeford Winery Expansion San Joaquin County --San Joaquin The project is to expand an existing small winery into a medium winery to produce a maximum of 99,000 gallons of wine on an annual basis. The project also proposes to construct a new 20,000 sq. ft. production facility.	Neg	05/25/2004

	Commercial Corridor Specific Plan, Fletcher Cove Master Plan, and the Eden Gardens Streetscape Master Plan.		
1991113067	Cienega Road Realignment San Benito County Hollister--San Benito The northern terminus of the realigned road would occur at the intersection of Cienega Road / Old Bird Creek Road. The southern terminus of the new roadway would intersect just southwest of the intersection at Cowden Road and Hospital Road. The road will cross Bird Creek Gulch, an intermittent drainage, with a single span, pre-cast culvert/arch bridge. The abutments for the bridge will be constructed in-place and on-site. Part of the realigned road would be constructed within the existing dedicated right-of-way; the remainder of the roadway would occur on land which the County would acquire.	FIN	
2003092098	Broadview Water Contract Assignment Project Pajaro Valley Water Management Agency Firebaugh--Santa Cruz, Fresno, Monterey, San Benito PVWMA is proposing to purchase, on a willing-seller/willing buyer basis, approximately 9,100 acres of lands within the Broadview Water District (BWD). The purpose of purchasing this land is for PVWMA to seek permanent assignment to PVWMA of BWD's CVP water service contract for up to 27,000 af/yr of CVP water supply associated with these lands. Assignment of BWD's CVP water service contract to PVWMA will provide PVWMA with the ability to meet its water management needs in the PVWMA service area by bringing existing and projected basin water demand and supply into balance and alleviate the seawater intrusion into the Pajaro Valley groundwater basin.	FON	
2004041130	Terra Bella Expressway 06-TUL-0.0/29.0 (PM0.0/18.0) Caltrans #6 Porterville--Tulare Widen 18 miles of SR-65 from a 2 to 4-lane expressway with a 61-foot median. It includes intersection improvements, minor highway realignment, bridge construction and modification at White River and Deer Creek, utility relocation, right-of-way acquisition, shoulder widening with rumble strips, an asphalt concrete overlay, culverts, and guardrails. 2004042132	Parcel Map 04-4 Tehama County --Tehama To subdivide an existing 13.83 acre parcel into two parcels a 6.4 acre parcel and a 7.68 parcel.	Neg	05/26/2004
2000084002	Proposed Federal Correctional Facility U.S. Department of Justice Lompoc--Santa Barbara Construction and operation of either a high-security United States Penitentiary (USP) to house approximately 1,000 inmates or a medium-security Federal Correctional Institution (FCI) to house approximately 1,152 inmates.	Oth	
1991113067	Cienega Road Realignment San Benito County Hollister--San Benito The northern terminus of the realigned road would occur at the intersection of Cienega Road and Old Bird Creek Road. The southern terminus of the new roadway would intersect just southwest of the intersection at Cowden Road and Hospital Road. Part of the realigned road would be constructed within the existing right-of-way; the remainder of the roadway would occur on land which the County would acquire. The right-of-way for the new portion of Cienega Road would be 84 feet wide, with 28 foot wide asphalt road surface placed on 38 feet wide aggregate of road base material. The road realignment would be approximately 3,000 feet long. The new right-of-way will encompass approximately 6 acres; the roadway will cover approximately 2.5 acres. The road will cross Bird Creek Gulch, an intermittent drainage, with a single span, pre-cast culvert/arch bridge. The abutments for the bridge will be constructed in-place and on-site.	NOD	
2003082109	Remedial Action Plan for Fill Site 6A (FS 6A) and Baker Beach Disturbed Area (BBDA) 3 and 4 Toxic Substances Control, Department of San Francisco--San Francisco The proposed project consists of the proposed approval of a Remedial Action Plan (RAP) by the Department of Toxic Substance Control (DTSC) to address contamination above site cleanup levels at FS 6A and BBDA's 3 and 4. The RAP for these three sites proposes "clean closure" consisting of excavation of contaminated soil and debris, recycling of non-contaminate materials to the extent practicable, and off-site disposal of contaminated materials.	NOD	
2004032033	Windsor River Road Widening Project - Starr Road to Windsor Road Windsor, City of Windsor--Sonoma Construction of the project is anticipated to begin in June 2004 and continue for approximately three to four months. Construction phases would include clearing and grading; utility pole relocations; storm drain installation; installation of the bicycle lanes, curbs, gutters and sidewalks and parking; paving; post construction cleanup; and site restoration. Improvements to widen Windsor River Road to 39 feet (curb-to-curb, typical) will be accomplished by narrowing the two lanes from 12 to 11 feet, and installing "traffic calming" measures (such as bulbouts), which serve to slow traffic. The bicycle lanes will be five (5) feet wide, and the sidewalks will generally be 5.5 feet wide. In addition, ornamental street lighting will be installed as part of the project.	NOD

2004032040	East Jibboom Street Sewer Realignment Project 2004 Truckee Sanitary District Truckee--Nevada The project will replace a sag in approximately 100' of existing 10-inch pipe with approximately 150' of new 10-inch sewer pipe.	NOD	
2004032041	Coachland I-80 Sewer Lift Station Project 2004 Truckee Sanitary District Truckee--Nevada The project consists of the installation of a sanitary sewer lift station and related appurtenances.	NOD	
2004032042	Sierra Meadows Lower Columbine Sewer Pipeline Project 2004 Truckee Sanitary District Truckee--Nevada The project will provide new sewer service to one single family dwelling unit in the Sierra Meadows subdivision. Installation of 200 lineal feet of 6-inch sanitary sewer pipeline, 48-inch manhole, and 4-inch service lateral.	NOD	
2004032101	Kimball Crossing Project, 56 Unit Multi-Family Housing Red Bluff, City of Red Bluff--Tehama Kimball Crossing is a multi-family, lower-income residential development on 2.88 acres in Red Bluff, at the corner of South Jackson Street and Kimball Road. Development will consist of a total of 56 units in 5 buildings, with a sixth building dedicated to community uses such as an exercise room, a computer room, and community room with lounge and TV, an area to do laundry, restrooms, and offices. The apartments themselves will consist of six two-bedroom apartments, forty three-bedroom apartments, and ten four-bedroom apartments. The site will be landscaped with a gated entrance.	NOD	
2004048487	SSSRA-Laser Strainmeter (03/04-CD-21) Parks and Recreation, Department of --Imperial The project consists of installing a laser strainmeter for the purpose of earthquake research. The strainmeter will be within the footprint of a temporary strainmeter that was removed in 2002, and will cross over a currently operating strainmeter. The new construction includes two 25-foot long shipping containers that will be partially buried (two feet deep) 400 meters apart and connected with 6" diameter vacuum pipe supported by removable stakes. A shallow trench will be excavated along the side of each container for wiring, and some minor repairs will also be done to the existing equipment. District Resource Ecologist and Paleontologist report that there will be no impacts to biological and paleontological records. An Archaeologist will monitor the excavation, although the site has been surveyed and no nearby cultural resources have been found.	NOE	
2004048488	Lease for the Habeas Corpus Resource Center Storage Space General Services, Department of San Francisco--San Francisco The Habeas Corpus Resource Center will lease approximately 2800 square feet of storage space. The space is needed for storage of office materials near the Habeas Corpus Resource Center at 50 Fremont Street, Suite 1800, in the City of San Francisco. No hazardous materials shall be stored in said leased space. No employees will be permanently stationed at the storage location, and no parking spaces are required. There is local public transit available within one-quarter mile	NOE

	(A) A modified 14,700-foot-long up to 48/36-inch raw water supply pipelines, (B) A new 11,800-foot-long 18-inch treated water supply pipeline, (C) A new 100,000-gallon hydraulic control standpipe and 500-foot-long, 36-inch overflow pipe, and (D) A new outlet pipeline that could discharge up to 17 cfs of water from the raw water pipeline to Dutch Ravine. The Supplemental EIR analyzes the potential impacts on environmental factors that may result from the construction and operation of these new project components.		
2001092014	Capitol Expressway Corridor Santa Clara Valley Transportation Authority San Jose--Santa Clara The preferred alternative is to extend light rail transit (LRT) along Capitol Expressway initially from the existing Alum Rock LRT Station to the Eastridge Transit Center in San Jose. If funding is available, the Light Rail Alternative could continue from Eastridge Transit Center to State Route 87. The project would include stations, park-and-rides, substations, LRTI storage, and other ancillary facilities.	EIR	06/11/2004
2003052076	Fair Oaks Manor Tentative Subdivision Map and Access Exception Sacramento County --Sacramento The proposed project is a request for the following entitlements: 1. A tentative subdivision map to divide 5.4+- acres into 14 single-family lots on property zoned RD-4 (Plate NOP-D), and 2. An exception to allow use of a private drive for access.	EIR	06/11/2004
2003102044	Master Water Plan Update Northstar Community Services District Truckee--Placer The MWP Update involves construction, operation, and maintenance of various water infrastructure facilities, including wells, pipelines, water storage tanks (reservoir), and pump stations, and updating of the existing water treatment plant. These facilities would be constructed to provide water to existing and future customers in the NCSD service area. The NCSD service area and sphere of influence encompasses a large portion of the Northstar-at-Tahoe ski resort in Placer County.	EIR	06/11/2004
2004041140	Public Service Center Monterey, City of Monterey--Monterey The project is the development of a new Public Service Center at 450 Madison Street within the existing Civic Center complex in downtown Monterey. The project proposes construction of two, two-story building totaling 32,300 sq. ft. above ground with a single basement of 8,800 sq. ft. The average building height of the north building will be 27'6". The average height of the south building will be 27'1". To serve the new building, 48 parking spaces will be developed south of Madison Street in a Van Buren Extension lot. A short section of Dutra Street will be closed, to all but emergency and service traffic, for the creation of a plaza and to provide safer pedestrian access. The proposed project will result in the removal of 12 buildings, 11 trees and the temporary loss of 58 parking spaces during construction and 18 fewer spaces upon project completion.	EIR	06/11/2004

2004042134	Bullards Bar Quarry Reclamation Plan Mining and Geology Board, Department of Conservation --Yuba The project is a reclamation plan pursuant to California's Surface Mining and Reclamation Act of 1975 for the proposed Bullards Bar Quarry. The proposed quarry will consist of mining and crushing approximately 623,000 cubic yards of rock to produce road base and rip rap. These products will be produced at a rate of approximately 60,000 cubic yards per year for a period of 10 years.	Neg	05/27/2004
2004042135	IA D1 Remedial Action Plan - Lead in Soil from Lead-Based Paint Removal Activities Toxic Substances Control, Department of, Northern California Permitting Branch Vallejo--Solano Residential structures have been the focus of several LBP and lead-in-soil surveys in IA D1. Surveys performed during 1995 and 1996 in residential areas of IA D1 (Farragut Village, the "Q" quarters along Azuar Drive, "Captain's Row," and other residential areas along Mesa Road and Cedar, Sargo, Wahoo, and Wawsmuth Avenues) concluded that LBP was present throughout the buildings inspected. The DTSC risk-based threshold criteria for lead, based on unrestricted land use, are 210 milligrams per kilogram (mg/kg). Soil removal actions in the areas where lead was detected in soils significantly above 210 mg/kg are required under CERCLA. Previous investigations for lead in soil and LBP have occurred in IA D1, but were limited to specific residential and demolished buildings, consistent with the proposed approach to evaluate LBP in IA D1 as presented in the Final Investigation Area IA D1 Site Identification Technical Memorandum (CH2M HILL 2003). Existing structures in IA D1 requires characterization and depending on the results, may	Neg	05/27/2004

2004048496	Turn Out-Lane for 4x4 Staging Area Parks and Recreation, Department of Hollister--San Benito The existing Cienega Road is a rural two lane country road with two, twelve foot lanes and two foot shoulders. The existing right of way is 60 feet wide, centered on the road and was deeded to the County in the 1880s. The purpose of this project is to provide the public entering Hollister Hills SVRA with a safe means of decelerating before turning extended vehicles, such as long-bed trucks, trailers, and RVs, into the entrance of the Park. The project will add a three hundred and fifty foot long by twelve foot wide deceleration lane, thus improving the entrance for the East Ranch (Hudner) 4x4 Area at the Bird Creek entrance of the park. The total roadway width will be 42 feet with all of the widening occurring on the east side of the road. The existing cut slopes will be pushed back to provide the additional room necessary to complete the widening, and the drainage will be modified to accomodate the widening. No major modifications to the existing drainage patterns will be necessary to complete this project. The existing twelve inch culvert will be extended by approximately twenty feet. The existing cut slopes along the road will be widened a varying width from zero to forty feet and excavated a maximum depth of two feet over a three-hundred and fifty feet long section. One existing utility pole with surrounding vegetation (joint telephone and power) on the east side of the road within the County right of way will be relocated further away from the centerline. Eight small oaks next to the utility pole will be removed. Six of them are valley oaks; one with a 3 inch DBH of less than one inch. The remaining two are live oak seedlings of less than one inch DBH. A poison oak bush will also be removed. Two non-native trees will be removed. One is a eucalyptus tree, the other is a walnut. Oak trees of the same type will be planted as replacements for the oaks. The majority of the work will occur in the County Right of Way, with a small area within the boundary of the park. The scope of work also includes the transfer of necessary property rights for this area within the park boundaries to the County to allow for County operation and maintenance of the turn-lane as part of County Right of Way. No work will occur from November 1 through May 31 to avoid impacts to California red-legged frog (RLF). In addition to a spill prevention and response plan, the Hollister Hills SVRA SWPPP (January 2004) will be implemented, providing accepted BMPs for control of soil erosion and turf. A DPR-qualified resource ecologist will conduct a pre-construction survey and monitor all ground-disturbing activites related to the lane-widening. If a California red-legged frog is found within the work area, work will be temporarily halted or diverted while a USFWS approved biologist relocated the frog to a suitable habitat outside the project area. A DPR-qualified resource ecologist will also instruct construction personnel in ways to recognize and protect California red-legged frogs or other sensitive natural resources prior to authorizing them to work in the	NOE

2002021120	<p>San Diego Creek Watershed Natural Treatment System Program Irvine Ranch Water District Irvine, Tustin, Lake Forest, Laguna Hills, Laguna Woods, ...--Orange</p> <p>The NTS Master Plan is a regional plan proposed for implementation by IRWD that would result in natural treatment of runoff from both existing and new development within the San Diego Creek Watershed. The NTS Master Plan consists of the creation and consolidated operation and management of new NTS wetlands and at least one, subsurface wetland-like feature to assist in managing the quality of surface runoff within the San Diego Creek Watershed. The goal of the NTS Master Plan is to assist in restoring the "chemical, physical, and biological integrity" of the San Diego Creek Watershed in compliance with the key objective of the Federal Clean Water Act. The NTS wetlands will enhance assimilative capacity of low value drainages resulting in natural removal of urban pollutants from dry weather flows, "first flush" storm water runoff and small storms. In addition, the NTS constructed wetlands will provide emergent marsh/wetland vegetation in upland areas and some drainages. It will assist in the Watershed's compliance with Santa Ana Regional Water Quality Control Board and U.S. Environmental Protection Agency requirements for storm water quality and pollution reduction targets. The NTS Master Plan will also assist the County and cities within the San Diego Creek Watershed in complying with the applicable Municipal Separate Stormwater Sewer System General NPDES Permit and Waste Discharge Requirements (MS4 Permit) and Total Maximum Daily Loads (TMDLs).</p>	NOD	
2002032132	<p>Freeport Regional Water Project Freeport Regional Water Authority Sacramento--Sacramento, San Joaquin, Amador, Calaveras</p> <p>The proposed project would construct and operate a water supply project to meet regional water supply needs. The project would support acquisition of additional Sacramento County Water Agency (SCWA) surface water entitlements to promote efficient conjunctive use of groundwater in its Zone 40 area, consistent with the Sacramento Area Water Forum Agreement and the County of Sacramento General Plan policies; (2) provide facilities through which SCWA can deliver existing and anticipated surface water entitlements to Zone 40 area; (3) provide facilities through which East Bay Municipal Utility District (EBMUD) can take delivery of a supplemental supply of water that would substantially meet its need for water and reduce existing and future customer deficiencies during droughts; and (4) improve EBMUD system reliability and operational flexibility during droughts, catastrophic events, and major maintenance at Pardee Dam Reservoir. Major facilities include: a new intake structure on the Sacramento River near Freeport; a raw water pipeline in Sacramento and San Joaquin counties; a new water treatment plant in central Sacramento County; a new pumping plant near the existing terminous of Folsom South Canal; and a new pumping and treatment facility at the Mokelumne Aqueduct in San Joaquin County. 	capacity by 57 million gallons per day (mgd), thereby increasing the total capacity from 92 mgd to 149 mgd (plus 20 mgd of standby capacity).		
2001021030	Fresno 40 Development Project Fresno, City of Fresno--Fresno The "Fresno 40" site is planned and zoned for office development by the 2025 Fresno General Plan and the Woodward Park Community Plan. Zoning is R-P/UGM and C-P/UGM. The applicant proposes to amend relevant land use plans and rezone the site to allow development of a mixed-use project consisting of a community shopping center (including a supermarket), offices and mixed retail use, and approximately 20 residential units developed as upper-floor rental or condo units.	NOP	06/01/2004
2004042147	Mike Fox Park - Skate Park Santa Cruz, City of Santa Cruz--Santa Cruz The City of Santa Cruz Parks and Recreation Department is proposing the construction of a new skate park at Mike Fox Park, a 1.25 acre park owned by the City. The park is bordered by San Lorenzo Boulevard to the north, Riverside Avenue to the east, and the San Lorenzo River levee to the south and west. The project site is currently occupied by three tennis courts and a roller hockey practice area. The skate park facility would replace the tennis courts. The roller hockey practice area would be included in the project.	NOP	06/01/2004
2003012064	Loomis Grammar School Expansion Project Loomis Union School District Loomis--Placer The project would expand Loomis Grammar School in order to replace existing portable classrooms with permanent buildings, upgrade recreational facilities, and improve substandard components within existing buildings. Other project components: add a multipurpose room, realign and add parking spaces, replace and upgrade recreational facilities, realign the entry into the site from Taylor Road, and undertake the State Modernization Project (facility upgrades including replacement of ceiling tiles, flooring, HVAC, painting, and other interior improvements). The Project consists of three separate components: 1) Site Acquisition of an expansion area 2) New Construction, and 3) Operation of the facilities.	Neg	06/01/2004
2004041147	Bremco Construction Inc. / North American Stainless (Warehouse Distribution Facility) San Bernardino County Land Use Services Department Rialto--San Bernardino The proposed project is a Conditional Use Permit to establish a warehouse distribution facility on 9.94 acres. The facility will receive coils of stainless steel by rail, which will be unloaded by crane. The coils will be cut into smaller widths and sent by truck to plants in the western portion of the United States. The facility will operate from 7am to 4pm, five days a week. The project is located at the intersection of Agua Mansa Road and Brown Avenue, which provides access to the site. This project site is in the unincorporated portion of the County of San Bernardino in the Agua Mansa Industrial Center. This area of the Agua Mansa area is within the City of Rialto Sphere of Influence. The County General Plan designates the project site as Agua Mansa Specific Plan / Medium Industrial, with an Improvement Level (IL-1).	Neg	06/01/2004

2004012121	Vallejo Sanitation and Flood Control District Routine Flood Control Maintenance Projects Vallejo Sanitation and Flood Control District Vallejo--Solano The project consists of two routine flood control maintenance activities: 1) sediment removal, including the removal of in-channel vegetation and 2) vegetation removal. For the purposes of the IS/MND, the term 'sediment removal' is used throughout and it includes the removal of in-channel vegetation. Sediment removal is the act of mechanically removing sediment that has deposited within a channel. Typically, the District removes sediment whenever it (1) reduces channel capacity, thereby increasing the potential for flooding of adjacent areas, (2) prevents tide gates, outfalls, stream gages, road crossings, and similar appurtenant structures from operating properly, or (3) causes unstable conditions that threaten levees. 'Vegetation removal' in this context means the removal of vegetation only and does not include the removal of sediment. Vegetation removal is necessary to ensure the passage of storm water. The beneficiaries of the project are the people who reside and work in the City of Vallejo.	NOD
